West Virginia Board of Treasury Investments
Investment Policy Statement

I. STATEMENT OF PURPOSE

This is the official Investment Policy of the West Virginia Board of Treasury Investments (“BTI”). Deviation from this Policy is not permitted without prior, explicit, written permission from the West Virginia Board of Treasury Investments. No deviation may violate federal or State law, rules and regulations.

This Investment Policy (“Investment Policy” or “Policy”) is adopted pursuant to Article 6C of Chapter 12 of the West Virginia Code and specifically outlines the investment philosophy and practices of the West Virginia Board of Treasury Investments (the “Board”). It has been developed to provide a fiscal administration, investment, and management plan for the Assets entrusted to the Board. The Board believes it is crucial to adopt a plan by which these Assets will be maintained and enhanced by using prudent investment policies. The Board has adopted this Investment Policy to serve as that plan, and to provide:

- A clear direction to Investment Managers and Consultants, Staff, Participants, and any other Outside Service Provider as to the objectives, goals, and restrictions with regard to investment of Assets;
- A methodology which allows Assets to be structured and invested in a prudent manner; and
- A meaningful basis for the evaluation of Asset classes, Investment Managers and the strategies used to achieve the various investment objectives.

II. INVESTMENT PHILOSOPHY

The Board was established by the legislature to provide prudent fiscal administration, investment, and management for the Assets. It is the investment philosophy of the Board to invest Assets in a manner that strives for maximum safety, provides adequate liquidity to meet all operating requirements, and achieves the highest possible investment return consistent with the primary objectives of safety and liquidity. Due to the short-term nature of the Funds, the Board believes that it is imperative to review and adjust the Policy in reaction to interest rate market fluctuations/trends on a regular basis. In order to accomplish this, the Board has adopted the following formal review schedule:

<u>AGENDA ITEM</u>	<u>REVIEW SCHEDULE</u>
Investment Performance	Quarterly
Investment Manager Rebalancing	Quarterly
Investment Policy	Annually
Fee Schedule and Budget	Annually
Select Rating Agencies	Annually
Stress Testing of Portfolios	Monthly

When required, the Board may react to trends in the market more quickly by itself or through actions of its Investment Committee.

The Board will employ Investment Managers to implement this Policy. The Board shall monitor the performance of and supervise all Investment Managers. Depending on the Portfolio they manage, the Investment Managers performance will be evaluated on some or all of the following:

- Performance relative to an appropriate benchmark(s) or proxy group;
- Consistency of philosophy, style, firm, and key personnel assigned to the BTI Account;
- Ability to add incremental value after costs;
- Firm attributes;
- Growth in Assets;
- Personnel issues and client service; and
- Research, trading and Portfolio characteristics.

Investment Policy Statement

In determining its philosophy towards risk, the Board considers its fiduciary obligations, statutory requirements, and current market conditions. Additionally, the Board will consider the Participants' purposes and characteristics, financial conditions, liquidity needs, sources and level of contributions, income and general business conditions. Based upon these many factors, the Board identifies when either a more conservative or more aggressive investment approach is warranted.

III. INVESTMENT OBJECTIVES

The Board's objective is to provide focused investment services for the Funds, reduce costs for, and increase returns to its Participants. Realizing the majority of the Funds are for operating expenses, the Policy is designed to address the short-term liquidity needs of the Participants and limit risk, but still permitting for a better rate of return than Participants may be able to obtain on their own.

The Board recognizes that risk (i.e., the uncertainty of future events), volatility (i.e., the potential for variability of asset values), and the possibility of loss in purchasing power (due to inflation) are present to some degree in all types of investments. Due to the short-term nature of the Funds, high levels of risk should be avoided, but the assumption of risk may be warranted if it is needed in order to allow the Investment Managers the opportunity to achieve satisfactory results consistent with the Policy and the Investment Guidelines for the Pool/Portfolio they manage.

All available Funds shall be invested with the following objectives and priorities:

- Safety of principal. Investments shall be undertaken in a manner that seeks preservation of capital with reasonable investment risk, in the overall portfolio.
- Liquidity requirements of anticipated and unanticipated expenditures.
- Maximization of the yield allocated to Participant investments consistent with all investment objectives.
- Recognition of differing objectives and needs of various Participants.
- Conformance with State law and other pertinent legal restrictions.
- Diversification of Assets by investment in various Securities classifications and the use of various Investment managers in order to smooth the volatility of returns.

IV. INVESTMENT/ADMINISTRATIVE RESPONSIBILITIES

The Board is responsible for the prudent investment and administration of the Funds and, in order to perform those responsibilities, has established complex operational requirements. In order to properly carry out the Policy, the Board will rely on Staff and Outside Service Providers. Due to the number of parties involved in implementing this Policy, their roles as fiduciaries must be clearly identified to ensure operational efficiency, clear lines of communication, and accountability in all aspects of operations. The following describes the various parties and the roles they assume as fiduciaries of the Assets:

A. BOARD OF DIRECTORS

The Board has the responsibility of establishing and maintaining the Policy and determining the objectives for all aspects of BTI operations.

The Board shall adopt By-laws and delegate the implementation of the Policy to the Investment Committee and Staff. The Board shall focus on important policy level issues maintaining the proper fiduciary perspective and time horizon for analysis of the progress of the Policy and the investment returns on the Funds, and develop, adopt, review or modify the Investment Policy, Fee Schedule, and Budget for the Funds at least annually.

WEST VIRGINIA MONEY MARKET POOL

As Approved by the Board

Investment Policy Statement

OBJECTIVES

The West Virginia Money Market Pool was created to invest Participant operating funds. The objective of the Pool is to maintain sufficient liquidity to meet the daily disbursements of Participants while striving to earn a return above inflation. The Pool is structured as a money market fund with the goal of preservation of principal. The Pool risk factor is low, and managed through numerous maturity restrictions, diversification guidelines, and credit limits.

Net investment income and realized gains and losses are declared as dividends and distributed daily to the Participants. If the pool incurs an extraordinary loss and distributing the loss would decrease the share value below one dollar (\$1), then the Investment Committee would be immediately notified for development of an action plan.

REBALANCING

Allocation to each Investment Manager is expected to remain stable over most market cycles. Since capital appreciation (depreciation) and trading activity in each individually managed portfolio can result in a deviation from the overall target allocation, the West Virginia Money Market Pool may require rebalancing on a periodic basis. Staff, in the normal course of Pool operations, will allocate contributions and redemptions in accordance with established internal policies.

Investment Manager	Target Allocation	Permissible Range
Investment Manager 1	50%	+/-5%
Investment Manager 2	50%	+/-5%

To achieve the rebalancing of the WV Money Market Pool, Staff may re-direct contributions and redemptions to individual managers, as appropriate, in order to maintain Investment Manager allocations within established ranges. If the re-direction of contributions and redemptions is not sufficient to maintain the allocations within the permissible ranges, then the Consultant and Staff will recommend transferring assets from one manager to another. The Board must be advised and approve any significant rebalancing activity.

BENCHMARKS

Attachment 8
West Virginia Board of Treasury Investments
Investment Policy Statement

OBJECTIVES

The West Virginia Government Money Market Pool was created to invest restricted moneys of Participants in U.S. Treasury and U.S. Government Agency Obligations. The investment objective of the Pool is to preserve capital, maintain sufficient liquidity to meet the daily disbursements of Participants, while earning a return above inflation. The Pool is structured as a money market fund with an emphasis of maintaining a stable dollar value. The risk factor on this Pool is low and managed through maturity restrictions. The default risk is minimal due to the types of Securities invested in.

Net investment income and realized gains and losses are declared as dividends and distributed daily to the Participants. If the pool incurs an extraordinary loss and distributing the loss would decrease the share value below one dollar (\$1), then the Investment Committee would be immediately notified for development of an action plan.
